

America's Reserve Components are a national security treasure –essential, adaptable & operational forces.

ROA'S MISSION IS SIMPLE & ENDURING

In 1922, General of the Armies John "Black Jack" Pershing formed ROA to ensure America had a strong reserve force – he knew war would come again. Nearly a century later, ROA's mission remains the support of strong Reserve Components, fighting for the readiness and equity of those who serve, and care for their families and veterans of Reserve service. We call this—Reserve Strength. Reserve Life.

As Reserve duty has changed with increasing operational missions, so has ROA—we serve more members of the Reserve Components than ever. ROA provides the tools, resources, support, education, and advocacy Reservists and their families need to succeed, in and out of uniform.

An ROA revitalizing for its second century is an opportunity for new members to help shape the new ROA. *You helped make history in uniform, now help make the new ROA!*

WE HAVE A DUTY TO FIGHT ON YOUR BEHALF.

JUST AS YOU FOUGHT FOR OUR NATION.

WHAT IS ROA DOING FOR YOU!

Together, ROA's members sound off in one voice for one mission.

ROA is America's leading advocate for members of the Reserve Components, their families, and veterans of the Reserve force. Supporting the Reserve force is part of what other groups do. *It's all ROA does.*

Members of the Reserve and National Guard face the unique burden of balancing civilian and military commitments. Too often, despite the good intentions of senior leaders, the Reserve force is treated as an afterthought in law and policy, in modernization, training, use, funding, and benefits. America's Reserve force deserves a dedicated voice to ensure readiness and forge equity in military and veterans policy.

ROA provides that voice; supporting the Reserve force is all we do.
